**Nalanda Science & Commerce College, Katni** was started in the year 2008. Ever since the start, our institution has provided a vibrant and congenial environment for our students to learn and enhance their knowledge. Our faculty is trained to impart knowledge based education to our students. Our Institution provides various activities, arts, sports in order to enhance our student's learning skills. Our aim to make the students thinkers and encourage them to be creative and active. At our institution, learning takes place inside the classroom and outside. In addition to the coursework offered, students "learn by doing" through a variety of activities and projects that bring together knowledge and practice. We provide a congenial environment for our students to expand their knowledge through cooperative study in a relaxed and comfortable atmosphere.

### **Vision Statement:**

We are organizing now Bachelor of Education-B.Ed. Degree & (D.El.Ed.)-D.Ed.-Diploma of Education. Education is that tool which is developing our society. We can do revolutionized changes in society by the education.

### **Mission and Objectives:**

The goal and moto of our institution is to develop teaching skills those who are under training, to introduce about new technology and technical learning process among the trainer students which is to make effective learning. The aim of institution is every students must be good in education with the help of trained teachers. The main aim of institution is, to all round development of the students.
